

Fekr Tani Sitemap

SITE MAP

- Footer pages and top navigation are currently placeholders and not final; their arrangement is generic and can be updated later.
- The sitemap represents an estimated structure of the full website (section by section) rather than the exact layout.
- The top navigation is illustrative and does not imply that all pages will appear in the header—it outlines potential main menu items.
- The total number of pages is planned not to exceed 30, as previously agreed.
